Comentarios de retroalimentación

You did a very good job overall!! With a little more practice on connecting your ideas smoothly, fine-tuning small grammar details, and making your intonation more dynamic, you would easily reach a top score. Keep practicing — you're very close!

Fluency and Coherency: 2.5 / 3

You communicate your ideas fairly fluently and coherently. Your answers are clear and you structure them logically. However, there are some pauses and slight hesitations that slightly break the flow of your speech. Using more linking words like "therefore," "however," or "in addition" could make your speech sound even more natural and connected.

Vocabulary and Grammar: 2,5 / 3

You use appropriate vocabulary related to IT and job interviews, and you attempt some more complex structures. However, there are some small grammatical mistakes, like missing articles ("I want to be AN app developer" and verb tenses ("I study" instead of "I have studied" when talking about past experience, if that's what you meant). These small corrections would make your English sound much more polished.

Pronunciation and intonation: : 3,5 / 4

Your pronunciation is quite clear, and I can understand everything without any problem. You have a neutral accent, and your words are mostly well articulated. However, sometimes the intonation is a little flat — especially at the end of sentences where a slight drop would make you sound more natural in English. Also, stressing key words a bit more would help to highlight important ideas.
