

Speaking - a conversation

You have to work with a classmate or two classmates (it depends on how many of you handed out the first writing task).

Invent a conversation using the topics and the models in the SPEAKING samples in unit 1 and 2, use some of the **given questions and expressions** to show interest, suggest, ... Try to focus on **work** to use some of the studied vocabulary, but also talk about other topics: holidays, coffee, ... Just one or two questions of other topics is enough.

Remember to use the **studied vocabulary and grammar** structures (UNIT 1 & 2). You can check **pronunciation** of words and expression before recording in several pages if the pronunciation is not worked in the course, I recomend you <https://howjsay.com/>, but it's up to you.

You can write a guide of the conversation, but it's a good idea **not to read** everything to sound more natural.

The task will be a videocall and you need to:

- Think about a context and write it in the description when you hand out the task in the platform (if you are friends, colleagues, from the same or a different company, you call for work, to look for help or just to chat, ...)
- Record the conversation with a videocall (for me to make sure who is talking at each time).
- Send me your guide if you have one (it would make it easier for me in case that I don't understand a specific term for example).
- Wait for your mark.
