0:00 / 1:54

YODA CONDITIONS

When a programmer writes the conditions for a piece of code in the opposite order.

Ruler example in Yoda terms: the sky is blue ('blue' === sky) When it should read: the sky is blue (sky === 'blue')

SPAGHETTI CODE

a program's source code that is hard to read. It often happens that a colleague's programmer has written code as cluttered and difficult to follow as possible.

CamelCase

Each word inside the phrase is written with a capital letter.

Plan de Modernización de la Formación Profesional. La oferta parcial y nueva de la Formación Profesional a Distancia en Aragón durante el curso 22-23 está financiada por el Ministerio de Educación y Formación Profesional y la Unión Europea NextGenerationEU en el marco del PRTR

[Política de privacidad](#)

SCRIPT KIDDIE

a derogative term that computer hackers coined to refer to **immature, but often just as dangerous, exploiters of int weaknesses.**

UNICORN

A unicorn software developer is **someone who knows web development and design skills.** Employers love a good developer so it's always a good idea for a web designer to learn coding skills (and vice-versa)!

WYSIWYG

“What You See is What You Get.”

A visual content editor within CMS that allows you to modify content in your website without needing to know

If you've ever made text in your website bold just by highlighting and clicking “Bold,” you were using WYSIWYG
